

Techie Youth

FEMALES IN TECH

Since our inception, Techie Youth has always held the outlook that technology careers can empower underprivileged people to become financially self-sufficient.

Our programs are open to all people who need our help, regardless of their gender, race, beliefs or any other human characteristics. We primarily focus on youth, as they are our future, but we also have a Techie Youth Plus+ program for “beyond-youth” demographics who can benefit from our services.

Presently, the technology sector is a male-dominated industry; in response to this, we have established female-focused programs to encourage more gender-balanced opportunities.

'The future is already here, it just isn't evenly distributed,' is one of my favorite quotes from sci-fi writer William Gibson. For me it highlights that access to progress and change is not always evenly or equitably distributed.

In New York City, we're committed to building a smart and equitable city that broadens access to tech for all New Yorkers. That's why NYC is proud of organizations like Techie Youth, who provide opportunities to New Yorkers who might not otherwise have them.

Minerva Tantoco,
First Chief Technology Officer for the City of New York

Techie Youth Programs

Techie Youth Learn to E-Earn

Learn to E-Earn is our flagship program that has helped thousands of participants worldwide. This program provides free technology-focused career training with 20+ different paths for participants to choose from, including computer-based remote jobs, entrepreneurial tech-ventures and methods to earn independent income online such as trading stocks and cryptocurrencies.

Techie Youth Programs

Techie Youth Learn to E-Earn

Our Techie Youth staff is always available to provide 1-on-1 coaching to every Learn to E-Earn participant.

Techie Youth Programs

Foster Gifts by Techie Youth

Foster Gifts provides recipients with free valuable objects that support their professional growth. Among other gifts, we have distributed hundreds of computers to foster kids and in-need demographics, as well as set up computer labs in community centers that support those constituents, ensuring that computer access is available to underserved communities.

Techie Youth Programs

Foster Gifts by Techie Youth

Our primary focus for Foster Gifts is to help older foster youth who are living in group homes and institutional settings without parents or family. Typically, these teenagers do not have anybody in their life whom they can even request help from when they need something expensive like a computer. Many recipients have told us that Techie Youth is the only organization that has ever cared to help them in a meaningful way.

Techie Youth Programs

Foster Gifts by Techie Youth

Emotional moment as she explains to Techie Youth staff how meaningful this laptop will be for her grandchild, who is receiving youth services through one of our partner agencies. She was expressing that she fears that her grandchild won't feel worthy to receive this Foster Gift, and she hopes that this will instill the belief that there actually are people who care.

Techie Youth Programs

Foster Gifts by Techie Youth

Catholic Guardian

Foster Gifts by Techie Youth has provided dozens of foster care teenagers at Catholic Guardian with laptop computers, and has also donated and set up computer centers at each of the Catholic Guardian group homes in the Bronx, including group homes specifically for gang-affiliated teenage girls and for teen mothers caring for their children. These residential centers house teens in foster care who are unable to be placed in foster-family settings.

Giving **FREE COMPUTERS** to Foster Care Group Homes!

Wounded But Not Defeated Heridas Pero No Vencidas (HPNV)

Techie Youth has converted an extra room at the HPNV Women's Center into a full computer lab. The new lab donated by Techie Youth provides support, guidance, education and career-advancement to dozens of females recovering from extraordinary life challenges.

Techie Youth Programs

Foster Gifts by Techie Youth

HeartShare St. Vincent's

Techie Youth has donated and set up multiple computer workstations for the youth at each of HeartShare St. Vincent's residential facilities, including all-girls foster care group homes, shelters and youth community residences.

Foster Gifts by Techie Youth has also provided individual laptop computers to dozens of teenagers who are long-term residents living in institutional foster care settings at HeartShare St. Vincent's.

Techie Youth Programs

Techie Youth Plus+

Hour Working Women

Techie Youth has provided technology-career training to a full class of formerly-incarcerated females who are seeking to re-enter the workforce, through a collaboration with Hour Children's "Hour Working Women" program and our TY++ program that serves "beyond-youth" in-need demographics.

Techie Youth Impact

六六六六六六

Techie Youth Impact

Techie Youth Learn to E-Earn serves thousands of youth in New York City as well as in several other cities around the USA; we also have a Techie Youth Learn to E-Earn training facility in Nigeria, Africa that is on-track to reach 1,000+ participants by the end of 2023.

Goals: USA

Techie Youth is aiming to raise funds to support the ongoing growth and expansion of our current programs. This will enable Techie Youth to both maintain our existing programs and also empower us to create new communities of constituents in targeted low-income regions of California, Ohio, Florida and several other US states.

Goals: international

We are raising funds to replicate our impact in Nigeria to the Philippines. With sufficient funding, we will open an additional Techie Youth training center in Tondo, one of the most-impooverished regions of Manila. Tondo is a tiny **3.5 square/mile** region that contains **650,000+** people, among the highest population density anywhere in the world.

Your opportunity to help

Techie Youth offers supporters and benefactors many choices for sponsorship, corporate brand-recognition and naming opportunities to honor or memorialize.

All donations are greatly appreciated; we yield a lot of benefit to our constituents from every donation received.

Your contribution to Techie Youth will result in an exceptional rate of impact and philanthropic return-on-investment.

Your donations are tax-deductible; Techie Youth is a 501(c)(3) not-for-profit registered charity of New York City.
